01 PROFESSIONAL PROFILE

Senior CRM and Sales Operations leader with over ten years of experience owning end-to-end Salesforce ecosystems across real estate, mortgage, e-commerce, logistics and telecommunications. Responsible for CRM architecture serving 700+ users across the UAE, Spain, Italy, Turkey and France, with a consistent record of designing scalable platform architecture, automating complex business processes and leading cross-functional teams to measurable commercial impact. Specialist expertise in Salesforce Sales Cloud, process automation with BPMN and Camunda 8, pipeline governance and sales performance analytics.

02 PROFESSIONAL EXPERIENCE

Senior Manager — CRM Solutions

Nov 2021 — Present

Huspy Dubai, UAE · PropTech — Real Estate & Mortgage

- Own end-to-end Salesforce platform strategy for 700+ users across five markets, aligning CRM architecture with sales operations objectives for both the Real Estate and Mortgage business units.
- Led advanced sales process automation using Flows, Apex and Lightning Web Components, reducing manual sales operations effort by 30% and accelerating pipeline velocity.
- Designed and implemented lead assignment, opportunity management and pipeline reporting frameworks that improved sales accountability and forecast accuracy.
- Delivered BPMN and Camunda 8 automation for mortgage workflows, streamlining the journey from lead capture to deal closure.
- Directing the migration from Salesforce to a custom in-house platform, owning scope definition, data integrity and operational continuity across all markets.
- Integrated AI and machine learning capabilities into the CRM to automate routine sales queries and personalise customer interactions, contributing to a 20% increase in customer retention.
- Partner with Sales, Product and Operations leadership to define KPIs, build executive dashboards and deliver sales performance insight.

Lead — CRM & Process Improvement

Sep 2018 — Feb 2021

noon Dubai, UAE · E-Commerce

- Implemented a dynamic customer support and sales operations workflow on Zendesk, improving process efficiency by 25%.
- Delivered 15 major sales process enhancements, integrating machine learning models to predict customer behaviour and surface upsell opportunities.
- Standardised CRM utilisation across teams through recurring training workshops, reinforcing data-driven sales decision making.

Subject Matter Expert — Customer Journey, Retail

Jul 2015 — Sep 2018

du Dubai, UAE · Telecommunications

- Championed an integrated CRM dashboard giving real-time visibility into customer behaviour and sales trends, driving a 25% increase in upsell opportunities and a 15% improvement in cross-sell rates.
- Designed and executed CRM-driven customer journey strategies that personalised retail engagement and improved sales conversion.

Sales Operations & CRM Expert

Sep 2013 — Jun 2015

Aramex Dubai, UAE · Logistics & Courier Services

- Managed end-to-end CRM operations for the sales organisation, maintaining data integrity across accounts, pipelines and activity tracking.
- Standardised sales operations processes across lead management, opportunity tracking and account segmentation to improve team efficiency.
- Built sales performance dashboards giving leadership real-time visibility into pipeline health, conversion rates and revenue trends.
- Supported onboarding and training of sales staff on CRM best practice, driving adoption and consistent data quality.
